IT & TECHNICAL SUPPORT | APPLICATION SUPPORT | CLOUD & AWS | BLOCKCHAIN & WEB3 | AI

Technology and business professional (growing into AI engineering) with 15+ years of combined experience across web development, business management, consulting, and technology projects. Experienced in technical support, troubleshooting, client communication and business analysis. Has built and deployed production blockchain and AI systems: a Layer 1 blockchain (Rust, EVM) on AWS, and a Hyperledger Fabric ledger with AI explanation for Quran and Hadith verification across Oracle Cloud and Google Cloud.

CORE IT & TECHNICAL SKILLS

IT & Technical Support	Technical troubleshooting, user/client support, issue analysis, technical communication, digital services support
Application & Software Support	Web application and SaaS support, application troubleshooting, technical documentation, client assistance
Cloud, VPS & AWS	AWS (EC2, cloud deployment, SaaS architecture), Oracle Cloud VPS, Google Cloud, Infrastructure as Code, Linux
Blockchain Development	Building blockchains: L1 in Rust with EVM; permissioned ledgers with Hyperledger Fabric; node deployment and operation
Smart Contracts	Solidity, Ethereum, token creation, transaction logic, DeFi models, tokenomics, crypto wallets
RWA Tokenization	Real World Asset (RWA) tokenization, digital bullion and asset-backed token concepts
Web, Web3 & 3D	Web development (15+ years), Web3 websites and dApp front-ends, 3D websites, website maintenance
AI Engineering (Pre-AI Engineer)	LangChain, LLM application development, prompt templates and chains, generative AI, prompt engineering, AI SaaS integration, AI-assisted development
AI Agents & Automation	AI agent design, human-agent team workflows, LLM-powered tools and assistants, Python for AI
Cybersecurity	Risk assessment, threat awareness, network security, firewall and vulnerability assessment; hashing (Python)
Consulting & Client Support	Technology and business consulting, business analysis, digital strategy, training delivery, team leadership

SELECTED TECHNOLOGY PROJECTS

- **Civetchain (Founder)** — Proof-of-Stake Layer 1 blockchain for civic engagement and governance. Chain: civetchain.xyz. Project web: civet.cloud, hosted on an AWS (Amazon Web Services) cloud VPS. Developed in Rust with EVM compatibility; deployed and operated in production.
- **QuranLedger (Founder)** — **quranledger.com** — Hyperledger Fabric blockchain ledger for verifying Quran mushaf text, beginning with Mushaf Madinah, structured at page, verse (ayat), letter, and harakat levels. AI is used to explain the mushaf and its hashes. Two live platforms:
 - **Quran: mushaf.xyz** — hosted on Oracle Cloud VPS
 - **Hadith: atsar.xyz** — hosted on Google Cloud; Python-based hash verification
- **Blockbulion.com** — blockchain-based asset tokenization and digital bullion platform concept (RWA).
- **AI SaaS Platform** — cloud-native SaaS application integrating generative AI / LLM capabilities; LangChain-based LLM development skills applied to AI features and agents.
- **Smart Contract / DeFi Projects** — Ethereum/Solidity work covering token creation, transaction logic and DeFi models.

PROFESSIONAL EXPERIENCE

Marketing Support Project | Emeraldal Project Property, Bandung, Indonesia | Feb 2025 – Apr 2025

- Supported sales strategy for a 30-hectare property development project.
- Coordinated marketing initiatives, client engagement, and project support.

Lecturer in Business Management | BSI University, Bandung, Indonesia | Jul 2012 – Jul 2019

- Delivered undergraduate courses in Business, Financial and Operations Management.
- Developed curriculum and mentored students in business strategy, analytics, and decision-making.

Specialist Registrar & Property Development | Indonesia | Jan 2009 – Apr 2012

- Managed quality control, budgeting, repairs, and sales operations for residential projects.
- Oversaw a 3.4-hectare residential development as Project Manager.

Web Development & Digital Services | Self-Employed / Various Clients | 2008 – Present

- Designed and maintained custom websites for business clients.
- Provided digital strategy, technical support, troubleshooting, and ongoing maintenance.

CERTIFICATIONS & DIGITAL CREDENTIALS

CYFRIN UPDRAFT	Blockchain Basics Course Cyfrin Updraft Completed 08 Mar 2026 Expires 08 Mar 2027
GOOGLE	Introduction to Generative AI (Digital Badge) Google 18 Aug 2026
LANGCHAIN COURSE	LangChain Course for Beginners (LLM / AI Development) Certificate code 10815508 30 Sep 2026 Foundation for LLM application and AI agent development
CLAUDE ACADEMY	Building Effective Human-Agent Teams (beta) Claude Academy (academy.claude.com)
BlockU	Blockchain Digital Expert BlockU University, Jakarta 2026
AXENCE	CyberSecurity Day AXENCE.NET, Krakow Dec 2025
EF SET	EFSET English Level B2 Upper Intermediate EF SET Dec 2025
JOULE	Samsung ASHP Installation & Commissioning Joule, Dublin Dec 2025
WATTS	Heat Pump Connections WATTS Jan 2026
KROHNE	Pipe Leak Detection Krohne, Duisburg Jan 2026

EDUCATION

- **Master's Degree – Business Management** | Universitas Pasundan, Bandung | 2013 | GPA 3.60
- **Bachelor of Science – Business Management** | Universitas Padjadjaran, Bandung | 2006 | GPA 3.14
- Additional study: Blockchain Digital Expert Diploma; Digital/Cybersecurity Studies, Ireland; Cybersecurity Training Program (2025–2026).

ADDITIONAL EXPERIENCE

Administrative and operations experience with state-owned manufacturing, railway manufacturing, Astra International, international journal publishing, Toll Global Express, university facilities management, and business operations.
